A little about us

We'd all worked in a wide range of roles within many different event settings. Everything from festivals, beach/rooftop parties, corporate entertainment and student event tours. However, until a night at a festival where we reluctantly entered a silent disco, none of us had ever attended one. After 30 minutes we were sold! Weeks later we formed a plan to develop our own concept.

Having worked in so many different sectors, we wanted to make sure we could customise our packages to suit all types of events & capacities, whether it's a private party of 100 people or a festival for 50,000.

We've been fortunate enough to work with some amazing companies and hope to continue to bring silent discos to events for years to come.
